

Req ID	Module	Requirement Description	SRS Verification Method	Tier Scope	Priority
SRS-AUTH-01	User & Auth	Self-registration capturing Name, Institutional Email, Roll Number, and Password.	Functional Test	S / M / L	Must
SRS-AUTH-02	User & Auth	Verification link sent to institutional email prior to account activation.	Integration Test	M / L	Should
SRS-AUTH-03	User & Auth	Email/Password authentication with encrypted session management.	Functional Test	S / M / L	Must
SRS-AUTH-04	User & Auth	Account lock for 15 minutes after 5 failed login attempts within 15 minutes.	Security / Automated Test	S / M / L	Must
SRS-AUTH-05	User & Auth	Password reset using a single-use email token expiring in 15 minutes.	Functional / Security Test	S / M / L	Must
SRS-AUTH-06	User & Auth	Role-Based Access Control (Student, Faculty, Admin) enforced per endpoint.	Security Audit / Test	S / M / L	Must
SRS-AUTH-07	User & Auth	Strict single active session per Student; secondary login invalidates primary.	Concurrency Test	S / M / L	Must
SRS-CRS-01	Course Mgr	Course Master maintenance (Code, Title, Semester) supporting soft-archiving.	Functional Test	S / M / L	Must
SRS-CRS-02	Course Mgr	Mapping one or more Faculty members to a Course.	Functional Test	S / M / L	Must
SRS-CRS-03	Course Mgr	Enrolling individual students into specific active Courses.	Functional Test	S / M / L	Must
SRS-CRS-04	Course Mgr	Gating exam visibility and attempt eligibility strictly by course enrollment.	Integration Test	S / M / L	Must

SRS-CRS-05	Course Mgr	All-or-nothing CSV bulk import for student enrollments with line-error logs.	System Test	M / L	Should
SRS-QB-01	Question Bank	Single-correct MCQ authoring (Stem, 2–6 options, 1 correct answer).	Functional Test	S / M / L	Must
SRS-QB-02	Question Bank	Multiple-correct MSQ authoring (Stem, 2+ correct options).	Functional Test	M / L	Should
SRS-QB-04	Question Bank	Question metadata tagging (Course, Topic, Difficulty: Easy/Med/Hard, Marks, Negative Marks).	Data Validation Test	S / M / L	Must
SRS-QB-05	Question Bank	Immutability via copy-on-write versioning for questions attached to published/attempted exams.	Database Integrity Test	S / M / L	Must
SRS-QB-07	Question Bank	Search and filter engine by Course, Topic, Difficulty, and Stem keywords.	Functional Test	S / M / L	Must
SRS-EX-01	Exam Authoring	Exam Master setting (Title, Course, Duration, Declared Total Marks, Instructions).	Functional Test	S / M / L	Must
SRS-EX-02	Exam Authoring	Manual selection and attachment of questions from the bank.	Functional Test	S / M / L	Must
SRS-EX-03	Exam Authoring	Paper auto-generation based on topic and difficulty distribution rules.	Algorithmic Test	M / L	Should
SRS-EX-04	Exam Authoring	Validation lock preventing publication if sum of question marks $\neq$ declared total.	Inspection / Unit Test	S / M / L	Must
SRS-EX-05	Exam Authoring	Per-exam policy settings (Negative Marking, Question/Option	Functional Test	S / M / L	Must

		Shuffle, Pass Mark).			
SRS-SCH-01	Scheduling	Scheduling window creation (Start Date-Time to End Date-Time).	Functional Test	S / M / L	Must
SRS-SCH-04	Scheduling	Attempt eligibility gating enforced by NTP server-time, enrollment, and attempt history.	System Test	S / M / L	Must
SRS-ATT-01	Delivery	Server-stamped attempt creation prior to question payload delivery.	Sequence Test	S / M / L	Must
SRS-ATT-02	Delivery	Server-calculated countdown timer, immune to client clock alterations.	Security / Unit Test	S / M / L	Must
SRS-ATT-03	Delivery	Single-question view with 4-state navigation palette (Unvisited, Answered, Unanswered, Marked).	UI / State Test	S / M / L	Must
SRS-ATT-05	Delivery	Background autosave sending active responses to server every ≤5 seconds.	Resilience / API Test	S / M / L	Must
SRS-ATT-07	Delivery	Automatic submission upon server timer expiry, preserving all autosaved responses.	Automation Test	S / M / L	Must
SRS-ATT-08	Delivery	Interrupted attempt resumption with saved state and server-restored time.	Fault-Injection Test	S / M / L	Must
SRS-ATT-10	Delivery	Distinct per-student question/option seed generation and attempt persistence.	Algorithmic Test	S / M / L	Must
SRS-EVL-01	Scoring	Fully automatic deterministic scoring execution on attempt submission.	Unit Test	S / M / L	Must

SRS-EVL-02	Scoring	Score evaluation applying full positive marks or configured negative deductions.	Calculation Test	S / M / L	Must
SRS-EVL-06	Scoring	Evaluation completion for a 100-question paper within ≤5 seconds.	Performance Test	S / M / L	Must
SRS-EVL-07	Scoring	Post-exam answer-key update executing bulk re-evaluation of affected attempts.	Integration Test	M / L	Should
SRS-RES-01	Results	Results hidden from Student dashboard until explicit Faculty publication.	Access Control Test	S / M / L	Must
SRS-RES-03	Results	Student scorecard generation (Total Score, Percentage, Pass/Fail status, Itemized Marks).	Functional Test	S / M / L	Must
SRS-INT-01	Integrity	Focus-loss / tab-switch event capture with accurate server-side timestamping.	Event Capture Test	S / M / L	Must
SRS-INT-07	Integrity	Complete exclusion of correct options/keys from all candidate-facing JSON payloads.	Payload Inspection	S / M / L	Must
SRS-ADM-01	Audit	Immutable, append-only log capture for all system state mutations and score overrides.	Security Audit	S / M / L	Must
